Moments of Magic, Solidarity, and Responsibility

Celebrating Children's Day with Magic in the Air!

In June, ASSUBUD celebrated Children's Day, offering enchanting moments of magic and theater. 🎭 🎪 Children were immersed in performances that transformed ASSUBUD into a joy and fantasy festival. 🎈 🎉

During the festivities, children enjoyed theater sessions for all ages, allowing them to dive into magical worlds filled with charming stories and characters. Everyone was enchanted by "The Seasons in Ve,Ri,Oi" 🌸 🍊 ❄️ 🌷, the classic tale of Carochinha 🐞, and the captivating "Giraffes Don't Dance" 🦒, as well as an amazing magician who provided astonishing tricks and unforgettable moments. Magic was truly in the air, creating an atmosphere of enchantment and pure happiness. ✨

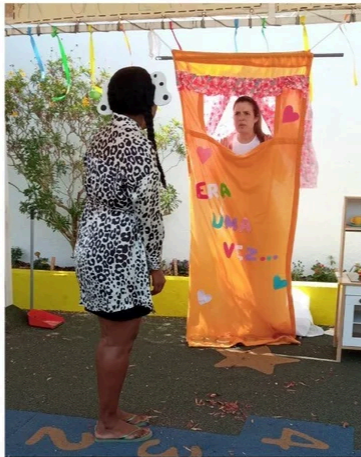

May every day be lived with the spirit of Children's Day, filled with smiles and heartwarming experiences, always reminding us of the importance of nurturing child development and care, essential for healthy and happy growth. ✨

Giving Back: Volunteering in ASSUBUD

In June, we welcomed three amazing volunteers from Mexico through our partnership with ImpactTrip. At ASSUBUD, the volunteers contribute significantly with dedicated care, additional educational support, and cultural enrichment, directly benefiting the holistic development of the children. 🌱🧠

Our volunteer, David, shared a bit of his experience at ASSUBUD:

After a 90-day volunteer experience in Africa 🌍, David's desire to continue helping led him to choose Portugal as his next destination. The references to Portuguese hospitality were confirmed on this new journey. Through our partner ImpactTrip, David arrived at ASSUBUD, where he was warmly welcomed. The warm reception reinforced his decision to become more involved in the community. 💛❤️

David helped the children during mealtimes and played with them. This routine brought joy to the children and provided moments of learning and personal growth. The interaction with the children and the team was extremely positive, with deep connections and sincere, affectionate interactions. ✨

David described his experience as excellent and filled with positive feelings. It was such a positive experience that at the end of the initial period, he asked to extend his stay by another week, highlighting how good he felt and the positive impact the experience had on him. Without hesitation, he encourages others to volunteer at ASSUBUD, convinced that the experience is enriching and offers a unique chance to impact the children's lives and their own. ❤️

Our Values

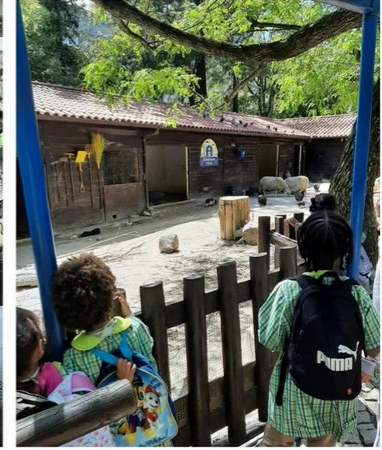

At ASSUBUD, **responsibility** is a fundamental value that directs all our actions and activities. Teaching children a sense of responsibility from a young age is essential for their personal and social growth.

For us, responsibility involves understanding and taking accountability for the consequences of our actions, making well-informed decisions, and actively participating as conscientious members of the community. We encourage children to understand that they are part of a larger group and that their actions impact others and their environment. 🌱🌍

Children are encouraged to take part in daily tasks such as tidying up toys or caring for the garden and vegetable patch from a young age. These activities help them develop a sense of responsibility for their actions and the resources they use. In collaboration, children learn to share tasks, work together, and take on responsibilities. This helps them understand the importance of cooperation and fulfilling group responsibilities. As they work towards goals, they learn the value of planning and dedication. We empower children to make age-appropriate choices, such as selecting activities or resolving minor conflicts among friends, helping them reflect on the consequences of their actions, and developing problem-solving skills. 🤝

Visits to the educational farm and zoo enrich our children's knowledge of the natural world and strengthen their sense of responsibility by showing them how their actions can positively impact animals and nature. At the educational farm, they learn how to care for animals while respecting their needs and environment, fostering a sense of commitment and care, and promoting respect for animals. At the zoo, they observe various species and understand the importance of preserving and respecting wildlife, realizing how our actions can influence animals and their habitats. 🐝🐼

In summary, responsibility is not just a moral duty but a way to demonstrate care and commitment to the world we share with others, nature, and animals. By acting responsibly, we contribute to a fairer, more sustainable, and harmonious environment for all living beings. 🌿🌍

Join us to build a world where all children can have equal opportunities.
